Careers in Natural Resources

The final list of activities is subject to change based on weather conditions or other unforeseen issues.

We may also add more activities!

The Natural Resource Camp is a great way to gain exposure to the world of natural resources, including fish, plants, wildlife, soils, invertebrates, and water. The camp offers opportunities to gain hands-on experiences in natural resource ecology and management. The camp is intended for high school students, entering grades 9, 10, 11, and 12, who have a strong desire to learn more about the natural world or who have an interest in pursuing a career related to natural resources. Permission of parent or guardian is required.

The Oak Lake Field Station is located 22 miles northeast of the SDSU Campus in Brookings County, South Dakota. Space is limited to 25 males and 25 females and is available on a first-come, first-serve basis. Lodging and meals are included in your camp registration (\$300). Please register by May 31, 2018.
